# Youngstown, Down For The Get Down

## Verse 1:

Brace yourself cause here we come

Us three unite to become one and get this party started

So get up outta your chair cause we're taking you there not a worry or care

Gonna dance until you feel it all in your soul

Come on and lose control

You can't sit still cause the music is taking you where you wanna be Chorus:

We make it hot and you know that we came to blow this spot

So lets go we keep it moving

Rock to this beat you hear me pumpin through your town

Because we're down for the get down

Stop, look and listen this is how we do it

Shock through your system when you listen to it

Rock to this beat you hear me pumping through your town

Because we're down for the get down
