Your Vegas, It Makes My Heart Break

Been livin' on a cloud
Been livin' up where the thunder claps.
Been lookin' at the sound
Been lookin' to find a high that lasts.
I wanna talk to God
But I can't find a question to ask.
I just see a town and two cities made of glass.
It makes my heart break
To see your state of mind.
It makes my heart break To leave you all behind.
(Where what you give is what you take)
Been livin' in a dream
Been lookin' to find the clock-face clown.
When tearin' at the seams
The world can seem a long way down.
Been runnin' in a maze
And I can see there's no way out.
Just see a town and two cities underground.
It makes my heart break
To see your state of mind
It makes my heart break To leave you all behind.
(Where what you give is what you take)
Don't look down.
Don't look down.
Don't look down.
Don't look, don't look down! Sha!
There's a town and two cities
Where time has no pitty And I run.
It makes my heart break
To see your state of mind
It makes my heart break
To leave you all behind.
To leave you all behind
And live beyond the railway line.
