

Youssou N'Dour, My Hope Is In You

I never know
But now I know
Some day we'll see
All the possibilities

My hope in is you
I wanna watch your spirit
Touch the sky
So much more we can do

My hope in is you
If you take your love and fly away
I know you'll make it through
You'll make it through

Drop your guns and go to school
Do you hear me brother?

Some day we'll know
Just how far we can go

My hope in is you
I wanna watch your spirit touch the sky
So much more we can do
If you take your love and fly away
I know you'll make it through

Feel the earth beneath your feet

So much more that we can be
I know you see, I know you see
Your future is shining

Ohhhh
My hope is in you
I wanna watch your spirit touch the sky
So much more we can do

My hope is in you
If you take your love and fly away
I know you'll make it through
You'll make it through
