

# Yukka, I Can't Sleep

What have I got to do  
To keep me from loving you?  
You take me by surprise  
You come knocking late at night

You say you found somebody new  
To tell you 'bout the trouble in you  
Well, you step out of the light  
When I walk into the room  
Here's what I'm gonna do

I can't sleep, I can't be without you now  
You mess around and you turn me inside out  
I can't sleep, I can't be without you now

And it's the same every day  
You know, I'm sure  
But I'm never safe

So how d'ya want us to go on  
Cuz it's like heaven and hell  
It's wrong  
I find myself in empty rooms  
With no one left to crawl to

You know, I'm staring at the wall  
I need a hammer, a blade  
I need nothing at all  
Some peace and quiet  
An emotional diet  
With some place left to fall to  
Well, let me tell you

I can't sleep, I can't be without you now  
You mess around and you turn me inside out  
I can't sleep, I can't be without you now

And it's the same every day  
You're always one step ahead  
Of my game

I can't sleep, I can't be without you now  
You mess around and you turn me inside out  
I can't sleep, I can't be without you now  
You mess around and you turn me inside out  
Don't you know that  
I can't sleep without you now

And it's the same every day  
You know, I'm sure  
But I'm never safe.
