

Yung Bleu, Bad Lil Vibe

If you a bad lil' vibe, we can spend a lil' time, you can stay the night
You can clear your schedule when you get settled, hit my line
'Cause I tend to call you when I need it
I got some plans for you, I confess

Stuck in the moment
And she got on that fragrance I like
I think I love the aroma
And I know you got your diploma, that head put me right in a coma
Late night, leave the studio, have a date night
Might have to catch a late flight
'Cause I can't feel my face
I believe that you got a spell on me

If you a bad lil' vibe, we can spend a lil' time, we can stay the night
You can clear your schedule when you get settled, hit my line
'Cause I tend to call you when I need it
I got some plans for you, I confess
If you a bad lil' vibe, we can spend a lil' time, you can stay the night

No, it ain't your bedtime, baby
I pulled up with this red wine, baby
We can fuck to some Genuine, baby
Leave that pussy unidentified, baby
Know I'ma beat it
I'm at the place where I met you
You know where we go when we tryna be secret
And I don't wanna talk, you know I wanna fuck on you just like it's fuck the polices
And you know I go hard, I ain't tryin' to go soft in this bitch, I'ma tear you to pieces
Baby, in my bedroom, it's a meeting

If you a bad lil' vibe, we can spend a lil' time, you can stay the night
You can clear your schedule when you get settled, hit my line
'Cause I tend to call you when I need it
I got some plans for you I confess
If you a bad lil' vibe, we can spend a lil' time, you can stay the night

I need you to come over
Hit from the side when you turn over
Wake up in the morning, we hung over
And I hate when you leave 'cause the fun over
Fuckin' you right, I'm fuckin' you right
Sex in a foreign car, I turned to a porn star
Ain't worried when you leave 'cause I know you ain't goin' far
Bad lil' vibe, that's my vibe, yeah

If you a bad lil' vibe, we can spend a lil' time, you can stay the night
You can clear your schedule when you get settled, hit my line
'Cause I tend to call you when I need it
I got some plans for you, I confess
If you a bad lil' vibe, we can spend a lil' time, you can stay the night

Spend the night
Bad lil' vibe
All mine
All mine
Yeah
