

Yung Bleu, Games Women Play

Save me
You ain't tell me that you love me lately
I use to have you blushing baby
So who you been fucking baby
The games that women play
Ouu the games that women play
You think you a playa
But you ain't got shit
On the games that women play

Just like you got a side she got a side
Just like you making time she making time
But the fucked up thing we always be surprised
We never take the time to look inside
See what's on her mind
But they say love is blind
I wanted you to be my bride but I'm so cold hearted
I can't forgive like you forgive you know love scarred me
I had to fuck that bitch she looked like Lori Harvey
I guess it won't mean nothing if I said I'm sorry

She hate the games that niggas played
It's hard to take it's easy to give them
Games that niggas play
And I'll always think of you
As that one that got away
My mind want you to leave
But girl my heart want you to stay
Those games that women play

Save me
You ain't tell me that you love me lately
I use to have you blushing baby
So who you been fucking baby
The games that women play
Ouu the games that women play
You think you a playa
But you ain't got shit
On the games that women play

The games that women play
Ouu the games that women play
You think you a playa
But you ain't got shit
On the games that women play

And I know my niggas like (Preach)
But all the women like (Please)
And I know a lot of men feeling like me
But don't know how to say it
I know these women they know how to play it
I ain't no pretty boy
But tell me who this durag by the bed
I'm jumping off the ledge
You fucked my head up now I'm seeing red
You better call the feds
Thought you was true really thought that I was blessed

But hurt so bad you feel it in your chest
I know you fucked that nigga
But tell me I'm the best
I need saving
You ain't tell me that you love me lately
I use to have you blushing baby

So who you been fucking baby

The games that women play
Ouu the games that women play
You think you a playa
But you ain't got shit
On the games that women play
The games that women play
Ouu the games that women play
You think you a playa
But you ain't got shit
On the games that women play
