

# YUNGBLUD, Happier (feat. Oli Sykes Of Bring M

Time goes by a little less slowly when I'm out my mind  
I thought you said 'I need you more than ever'  
So why'd you have to hide?  
'I need you more than ever'  
Don't let me die  
I need you more now  
If I could tell you how I feel  
I know that you're still hurting too  
No I'm not broken,  
Im just scared to belong here, scared to be happier  
If I could tell you how I feel  
I know that you're still hurting too  
No Im not broken, I'm just scared to belong here, scared to be happier  
To be happier  
Take my heart and put on a wall right next to all your scars  
I thought you said you need me more than ever  
So why'd you have to hide  
I need you more than ever  
Don't let me die  
I need you right now  
If I could tell you how I feel  
I know that you're still hurting too  
No I'm not broken,  
Im just scared to belong here, scared to be happier  
If I could tell you how I feel  
I know that you're still hurting too  
No Im not broken, I'm just scared to belong here, scared to be happier  
Broken, I'm not broken, I'm not broken, I'm just a little depressed  
I'm not broken, I'm not broken, I'm not broken, I just need a rest  
Broken, I'm not broken, I'm not broken, I'm just a little depressed  
I'm not broken, I'm not broken, I'm not broken, I just need a rest  
If I could tell you how I feel  
I know that you're still hurting too  
No I'm not broken,  
I'm just scared to belong here, scared to be happier  
If I could tell you how I feel  
I know that you're still hurting too  
No I'm not broken,  
Im just scared to belong here, scared to be happier  
(Happier)  
(I'm not broken)
