

Yungstar, Screens R Fallin

(Lil' James)

Crawlin' through the city Benz lit with Five screens....
Europeans sticky greens
Promethazine that make me lean, it seems like a dream
Dressed clean with a pinky ring
Hit the button, wave the trunk, my camcorder peepin' schemes
Blades chooppin' like karate, i done stretched a mazarati
Sippin drank and join my hottie, screenz stalling wide body
Swang through the subdivision, screens fall Flex vision
As I ball for postion, makin a throwed decision
On a mission expedition makin'em have a collision
With lyrical ammunition wreckin all competition
Screens fallin' when im crawlin' through the Tre down Dalton
Lane stallin', shot callin', while the trunk be haulin'
Ballin' out of control at 19 years old
Give me the remote control i seen this episode
Game's throwed, minds blowed, when its time to hit the road
Lil' James is the name, I put the "T" in throwed.....

(Chorus)
