

Yusuf / Cat Stevens, All Nights, All Days

All nights, all days
I keep waiting for the world to change
Wintertime, summers too
I keep hoping for something new

If it don't break it'll burst
If it's not bad it's worse
If it don't bleed it really hurts!

Bad storms or clear skies
Those politicians keep telling lies
Daylight, deep dark
They steal hope from the people's hearts

It's not a sin, it's the law
It's rich tax the poor
It's never less, it's always more!

Sunset to dawn
People love just'a doing wrong

Do do do do do do
Do do do do do do
Do do do do do do

One day now, things could change
If people stopped behaving strange
Smile at strangers, neighbours too
Lock those leaders in London's zoo!

And if I had a dream come true
It's God's Garden I'm looking to
Somewhere in there is me and there's you

All nights, all days
I keep praying for the real change

Do do do do do do
Do do do do do do
Do do do do do do
