

Zebrahead, Hell Yeah

Hell Yeah! Woooooo
Boom clock, trippin' with the flavour of hip hop
Spittin' out venom as I'm watching all your heads bob
Representing for the outcasts and the have nots
Needing to find light in a world that has blacked out
Put your middle fingers up (Yeah put em up)
We've had enough
We take our shots at the gin we have no tuck
We know exactly why you're here, so make it clear (let's go)
We know you want to (Let's go, Let's go)
Hell Yeah! Hell Yeah!
We want control
Hell Yeah! Hell Yeah!
I see you call alone
Hell Yeah! Hell Yeah!
I got the microphone
And we're picking up speed like a rolling stone
Let's Go! We can't live forever
One note! The louder the better
So Let's Go! We're in this together
Can't you hear me?
Hell Yeah! Let's Go!
Let's Go! We can't live forever
One note! The louder the better
So Let's Go! We're in this together
Can't you hear me?
Hell Yeah! Let's Go!
Rising from the ash, counter clash and it's no doubt
Swinging from the rafters are the kids who never sold out
Holding out for hope, this shit is dope, hear the crowds shout
Fighting to survive, one day we'll make them tap out
Raise your voices up (Yeah raise em up)
We've had enough
We're standing up and now we're being heard the gloves are off
The voice is loud, we have the crowd, the time is now (let's go)
We know you want to (Let's go, Let's go)
Hell Yeah! Hell Yeah!
We want control
Hell Yeah! Hell Yeah!
I see you call alone
Hell Yeah! Hell Yeah!
I got the microphone
And we're picking up speed like a rolling stone
Let's Go! We can't live forever
One note! The louder the better
So Let's Go! We're in this together
Can't you hear me
Hell Yeah! Let's Go!
Let's Go! We can't live forever
One note! The louder the better
So Let's Go! We're in this together
Can't you hear me
Hell Yeah! Let's Go!
Get up tonight
Stand up and fight
They are here
They are in sight, they're in sight
And I can't go alone on this microphone
Is this on? Is this on?
This flow is definitive, makes it go hard again
Boys with no choice, it's so limited
Hell Yeah! Come on!
Hell Yeah! It's On!
Bounce to the boom of the beat of the drum

Let's Go! We can't live forever
One note! The louder the better
So Let's Go! We're in this together
Can't you hear me
Hell Yeah! Let's Go!
Let's Go! We can't live forever
One note! The louder the better
So Let's Go! We're in this together
Can't you hear me
Hell Yeah! Let's Go!
Hell Yeah!
