

# Zebrahead, Riot Girl

Here she comes, T-minus 3

Watch your back

Walk around the debris

Light the fuse

and if you're ready come on

She's my riot girl

She's my riot girl

Is it something that she might've just missed

Is it something that she can hit with her fists?

Light the fuse

and if you're ready come on

She's my riot girl

She's no steppingstone

She'll cut you to the bone

You're better off alone

When she's on, she's on!

Whoa-oh Whoa-oh

She's no minor threat

She's no minor threat

She's been bruised and bled

Whoa-oh Whoa-oh

She's no minor threat

She's no minor threat

She says love is dead

Whoa-oh Whoa-oh

She's hanging on by a thread

Take your crimes in stride and commit

There she goes smoking TNT

Down the hatch

Call the LAPD

Either way, she wants to riot come on  
She's my riot girl  
She's my riot girl  
Give her something and she'll try to resist  
Give her something she'll just swing with her fists  
Either way, she wants to riot come on

She's my riot girl  
She's my riot girl  
She's no steppingstone  
She'll cut you to the bone  
You're better off alone  
When she's on  
She's on!

She's standing on the front line  
Says she wants to light the fuse  
Says that this is my life  
It should be my right to choose  
She's standing on the front line  
Says she wants to light the fuse  
Says that this is my life

It should be my right to choose  
She only wants to burn it down  
She wants to see them go , she don't need them  
Send it right back into the ground  
She says it a violent world, a violent world  
leave you with all the bodies around  
She's my riot girl  
she's such a riot

She's no steppingstone  
She'll cut you to the bone  
You're better off alone  
When she's on, she's on!

Whoa-oh Whoa-oh  
She's no minor threat

She's been bruised and bled

But she's seeing red  
She's hanging on by a thread  
Take your crimes in stride and commit
