

# Zebrahead, We're Not A Cover Band, We're A Tri

Tonight we're gonna rule the world again  
Plug it in, steal the girls again  
Scissor kicks, bitchin licks and  
Leather chaps and finger taps and  
Tonight we're gonna let the roof cave in  
Raise hell, passing out again  
Spandex, whipping necks and  
Mic stands, leopard head bands

Plug in tune out lets start the show  
Its time to throw down here we go  
Don't touch that volume button  
We don't care if the SWAT team comes knockin'

Hey ho, welcome to the jungle  
Oh no, where is Mr. Bungle?  
Holiday in Cambodia  
Help me Knights of Cydonia  
The bulls are on parade  
There's anarchy in the UK  
Cities all on flame with rock and roll tonight

Tonight we're getting metal signs and  
They'll crowd surf, jump in time again  
Guitars, whammy bars and  
High fives, stage dives and  
Tonight we're gonna melt your face and  
There'll be pounding bass again  
String bends, leather fringe and  
Motorbikes, metal spikes and

Plug in tune out lets start the show  
Its time to throw down here we go  
Don't touch that volume button  
We don't care if the SWAT team comes knockin'

Hey ho, hi my name is Jonas  
Oh no, our parents might disown us  
Rock you like a hurricane  
There's Cherub Rocks in LA Grange  
The Mississippi Queen  
She just won't talk dirty to me  
Story of my life is just rock and roll all nite

We got burn outs and in house we're down to play  
And if your down with the sound let me hear you say  
We're no sell outs so you can put your cash away  
Cuz the basement stays open like early late

We got burn outs and in house we're down to play

Hey ho, hit me with your best shot  
On no, sabotage, I can't stop  
The devil went down to Georgia  
Pride and joy with a barracuda  
It's raining blood on me  
The cult of personality  
The number of the beast is one.
