

# Zebrahead, With Legs Like That

Here she comes again, like good medicine  
Every step she takes, my blood is flowing  
Her legs go on and on for days  
She's got a hold of me  
I need the remedy  
Just to hold her would, be a cure for me  
I cant keep going on this way (i gotta get away, i gotta get away)

She's at the top of her game  
She don't know my name  
The teacher's lookin weak  
She's out of my league

Look out, she'll tear your heart out  
Look out, she'll want you out there's no doubt  
She comes again, she wants to  
I'll do anything she wanted me to  
Who would blame me, with legs like that

Here she comes again, she makes me wanna sin  
My heart stops when I think about her coming  
Her legs go on and on for days (on and on and on and on)  
She's got a hold on me,  
It's a tragedy  
That i would never get a chance to have her close to me  
When she moves she takes my breath away (she moves and she moves)

She's at the top of the game  
She don't no my name  
She's looking at me  
She's out of my league

Look out, she'll tear your heart out  
Look out, she'll want you out there's no doubt  
She comes again, she wants to  
I'll do anything she wanted me to  
Who would blame me, with legs like that

She's breaking me down  
She's at the top way that I wanna go  
Breaking me down  
She gets me hot when I go down low  
Breaking me down  
She's on the move when I'm going slow  
Breaking me down  
Just one run gets me to the go

She's like that (like that)  
She's like that (like that)

Look out, she'll tear your heart out  
Look out, she'll want you out there's no doubt  
She comes again, she wants to  
I'll do anything she wanted me to  
Who would blame me, with legs like that

(she moves and she moves and she moves)  
(she moves and she moves and she moves)  
Legs like that  
(she moves and she moves and she moves)  
(she moves and she moves and she moves) (Repeat to fade)

Legs like that (x5)
