

Zeeza, Baby Come Back

Baby Come Back

oh my love I still need you but I've got someone else
I know they say that your not free but you end up with me
you promised me a love affair you said you'd be mine
now my head goes round and round and I'm not feeling fine

how could you be gone forever I know your still around
The day you fell in love with her my heart went underground
make it to the dance and we can hold each other tight
so baby come back to me my love I need you tonight

baby come back I love you baby come back I need you
baby come back I love you baby come back I need you

IL be hanging round the band Ill watch your every move
Ill whisper to you tenderly until you get the groove
you promised me a love affair you said that you'd be mine
now my head goes round and round and I need you tonight

baby come back I love you baby come back I need you
baby come back I love you baby come back I need you
