

# Zendaya, Something New (ft. Chris Brown)

I wanna try something, all night  
I wanna try something, all night

Don't know your name, but I guess I really don't care  
I probably should wait, but I wanna let you go there  
I wanna try something new, all night  
I wanna try something new, all night  
I wanna try something

The way you looking tonight  
Only one thing comes to my mind  
When the lights come on at you  
I'll still be moving with you  
Boy you're looking at nobody  
Just my body  
Don't know your name, but I guess I really don't care  
I probably should wait, but I wanna let you go there  
I wanna try something new, all night  
I wanna try something new, all night  
I wanna try something  
I wanna try babe  
All night

[Chris Brown:]  
I, I, baby  
Baby know what you doing tonight?  
I see that look in your eyes  
I feel the same, yeah yeah  
Miss your lips girl when we kiss  
Why don't we handle this?  
Girl you know I need some affection  
Don't know your name, but I guess I really don't care  
I probably should wait, but I wanna let you go there  
I wanna try something new, all night  
I wanna try something new, all night  
I wanna try something

I wanna try babe  
All night  
This ain't forever baby, just tonight  
Just sit back and take my direction now  
Don't know your name, but I guess I really don't care  
I probably should wait, but I wanna let you go there  
I wanna try something new, all night  
I wanna try something new, all night  
I wanna try something

I like that new-new boy, I like that new  
Wanna try  
Give me that new-new boy, give me that new  
Wanna try  
I like that new boy, I like that new  
Wanna try  
Give me that new-new boy, give me that new  
Wanna try
