

Zero, Should I

Should I
I have a crush
On a girl

My friends say I should ask her out
But I have doubts
About her thoughts
That iam a fool
To even try

She'd laugh in my face
I'd feel like a disgrace
I don't want to be burned
Like that again

I want to run
Away from this
All I want is just one kiss
A little peck that's all I need
To feed the fire that I use to breathe

So the question is
Should I
The answer is hard to find
Should I
She is truly one of a kind
Should I
That is truly the question
I need to find

Its hard to guess if she likes me too
If she don't ill look like fool
That is not cool
Too look like a fool
In front of the school
That is not cool

I want to run
Away from this
All I want is just one kiss
A little peck that's all I need
To feed the fire that I use to breathe

So the question is
Should I
The answer is hard to find
Should I
She is truly one of a kind
Should I
That is truly the question
I need to find

I want to run
Away from this
All I want is just one kiss
A little peck that's all I need
To feed the fire that I use to breathe
