

Zididada, Sitting On The Beach

Release date: 1. november 1999

Album: Welcome to Zididada

I'm a face full of pimples
heavy lenses, hay-hair and bad breath mouth
daft dressed, slow thinking
and the rails on my teeth
makes me wanna hide

I'm sitting on the beach
watching the water
how lonely I am longing for you
I'm all alone out here
watching the moonlight
I'm sitting on the beach

Waiting for you baby baby
you baby baby aaa
(you're my sweetdream you're my fantasy)

You baby baby
you baby baby
(come on with me)

I'm a face full...

I'm sitting on the beach
watching the fire
how lucky I am holding your hand
how perfect this is now
watching your eyes glow
I'm sitting on the beach

Kissing with you...

I'm a face full...
