

# Ziggy Marley, I Remember

Haunting memories won't leave me alone  
I remember you what you did to me I remember  
October November I remember what you did to me  
Hot night in summer I never forget the time in June I remember  
The love we had why make it look so bad I remember  
I remember the place I remember your face I remember it oh so well I remember  
I remember your touch I remember how much I remember how we felt  
All the good times were not for waste  
And we were never in any haste  
We grew to know each other well so well  
Our lives a story to tell  
I remember you what I did to you do you remember  
October November I remember what I did to you  
Hot night in summer I never forget the time in June I remember  
The love we had why make it look so bad I remember  
I remember the place I remember your face I remember it oh so well I remember  
I remember your touch I remember how much I remember when I remember now and then  
I remember  
I remember the place I remember your face I remember it oh so well I remember  
I remember your touch I remember how much I remember how we felt I remember
