

# Ziggy Marley, Keep On Dreaming

When you left me, I didn't cry, but my heart was heavy  
as heavy as lead  
I sit there thinking with no thoughts in my head  
I could not be comforted, by the living or the dead

So I keep on dreaming to communicate  
and I keep on dreaming if that's what it take  
keep on dreaming, it's never too late  
keep on dreaming, cause that's what it take

I see you in my visions, and it seems you're right here  
I wish I didn't have to wake up, but here comes the light of day  
it's been too long now, since you went away  
won't you come back, so we can play

So I keep on dreaming to communicate  
and I keep on dreaming if that's what it take  
keep on dreaming, it's never too late  
keep on dreaming, cause that's what it take

I knew it wasn't over, it was only the start  
cause I see the light that shines in the dark  
the questions have answers, my love isn't lost  
fate put us together, so nothing can tear us apart

So I keep on dreaming to communicate  
and I keep on dreaming if that's what it take  
keep on dreaming, it's never too late  
keep on dreaming, cause that's what it take
