Ziggy Marley, Keep On Dreaming

When you left me, I didn't cry, but my heart was heavy as heavy as lead I sit there thinking with no thoughts in my head I could not be comforted, by the living or the dead

So I keep on dreaming to communicate and I keep on dreaming if that's what it take keep on dreaming, it's never too late keep on dreaming, cause that's what it take

I see you in my visions, and it seems you're right here I wish I didn't have to wake up, but here comes the light of day it's been too long now, since you went away won't you come back, so we can play

So I keep on dreaming to communicate and I keep on dreaming if that's what it take keep on dreaming, it's never too late keep on dreaming, cause that's what it take

I knew it wasn't over, it was only the start cause I see the light that shines in the dark the questions have answers, my love isn't lost fate put us together, so nothing can tear us apart

So I keep on dreaming to communicate and I keep on dreaming if that's what it take keep on dreaming, it's never too late keep on dreaming, cause that's what it take
