

Zion, Help Me

(David Moore)

Been walking all day

Been crying all night

Doesn't seem to be an answer in sight

A frightened heart cries out to you

Waiting for your love to break through

I've tried my best to do what is right

I only want your love in my life

So I call out to you and I try to get near

But silence is all that I hear

Help me

Help me

To wait

Help me

Before it's too late
