

Zita Swoon, Big City

I take a ride
To the big city
I take a ride
To the big city
Lots of things I wanna see
In the big city

I take a ride
It's gonna be pretty
I take a ride
It's a gonna be pretty
Lots of people I wanna meet
In the big city

I take a ride
I'm driving with my daddy
I take a ride
I'm driving with my daddy
The same blood running through our veins
Me & my daddy

We take a ride
Our souls are side to side
like they should be
We both know
Nobody's ever gonna come between us
We're like links in a chain
Me & my daddy

We take a ride
Through millions of summers and winters and autumns and springs
We take a ride
Just 2 lost souls without a clue
about anything
Except that this ride sure is gonna show us something

We take a ride
We're confident that where
we're going life is good
We take a ride
We both needed a lot of time to realise that this is what we should
Have been doing all along
Maybe we didn't think we could
