

Zita Swoon, Remember To Withhold

I want my baby for me cause I love her
I want my baby for me cause I love her
I want my baby for me cause I love her
I want my baby for me cause I love her
And never will leave her
I never will go

I want my baby for me cause I love her
but sometimes I swear I don't know
Who the hell my baby is
Cause all I need from a girl is a little love
And every now and then a little kiss or talk
And all I want from life right now is
To love her and never to leave her
I'll never let go

I want my baby like a teddy bear
I lie awake at night and in the dark I stare
I move a little closer just to feel her heat
She turns herself round
And Mother Nature wants to help us meet
I'm cracking like a crow and credalidaly there
I'm moving down my hands in her underwear
Boogie boom boom baby
Prickly pears
Just the bear necessities, that's all I really care about
The rest of the day will be filled with doubt
But this is what life and this night's about
I'm working real hard I wanna hear her shout
Yeah I'm working real hard I wanna hear her shout

I want my baby for me cause I love her
I want my baby for me cause I love her
I want my baby for me cause I love her
I want my baby for me cause I love her
And never will leave her
I never will go

Oh love me baby just hold on tight
I got more love than anyone could ever give
Oh love me baby just hold on tight
I got more love than anyone could ever give

I want my baby for me cause I love her
I want my baby for me cause I love her
I want my baby for me cause I love her
I want my baby for me cause I love her
And never will leave her
I never will go
