

Zoe Girl, Constantly

You said "Come to me, if you're weak"
&"I won't look away & I will keep you close"
But the closer I get the harder it seems
I find myself pulling away from all of the things I believe

[Chorus:]

Lord, don't give up on me, it's You I need
So let your love rain down upon my soul
Filling up the deepest hole
I still love You so

I have tried to cross this river wide
And even though the storms were raging high
I could see Your light shining constantly
(I could see morning light shining constantly)

Constantly, You were always there
You said "Lay it down. give it up"
&"I will understand no matter what it is"
But instead I face failures & constant disbelief
That you could ever love me knowing the secrets I keep
Despite my broken heart & shattered dreams

Lord, You're right there reminding me, reminding me
Oh, I have called to You in time of need

You let Your love rain down upon my soul
Constantly You let me know, I still love You so

Oh, I have tried to cross this river wide
And even though the storms were raging high
I could see the morning light, shining in the sunrise
Constantly
