

# Zoe, Haze Girl

I don't know her but I don't mind,  
I think that I'm going crazy,  
I met her in a Sunday morning,  
descending from a thunder haze.

Put your hands in my head and close my eyes with your fingers,  
put your lips girl, on my mouth,  
I love all the ways you use to make me feel better,  
well, take your time, we live inside an atomic.

Hazegirl, beautiful girl,  
step out of the rain, and let everything vanish away,  
oh, changes!  
It's hard to go on, but it's better than fading away.

Fading away.
