

Zoe, Love yourself

So get on down
Don't fool around
Yeah, this is all I know
No guarantees
Do what you please
Nobody told you so
If you know what you want then do it
No one else's gonna put you through it
Gotta say, anyway, what's on your mind
If you act like a child they'll kill you
Yeah, you say that you know but still you
Lead a life that is just a waste of time

CHORUS

You've got to love yourself 'cause there is no one else
You got to stand your ground for feelin' fine
You've got to love yourself as if there's nothing else
You got to know that you're one of a kind
So get on down
Don't fool around
You'll never get your way
You're insecure
You're not quite sure
It's not the good old days
If you think that you cannot beat 'em
They will surely continue cheatin'
If you keep holdin' back what's on your mind
Ev'ryday you'll get aggravated
Ev'ryday you'll be so frustrated
If you're not gonna stop that waste of time

CHORUS

HOOK

So this is alright, baby, this time
You got it alright tonight
Yeah, this is alright, baby, this time
You got it alright tonight
Ev'ryday you'll get aggravated
Ev'ryday you'll be so frustrated
If you're not gonna stop that waste of time

CHORUS
