

# Zombina And The Skeletones, Red Planet

I'm bored in a rocket ship comin' to you, boy  
Build magnets in the sun  
Gonna book a room in a space motel  
Un-mask Doctor Doom in a kiss and tell  
'Cause I'm headin' for outer space  
With a real bad motor burn

Woah oh, red planet!  
Woah, red planet, yeah!

'Cause all I think about is me and U F O  
Watching lost in space and drinking rocket fuel, you know  
When the sun gets full tommorow night  
We're gonna get down, baby, on a satellite, maybe  
Let's go, let's go, let's go, let's go!

This song goes out to anyone who ever tasted their own blood  
On the surface of red planet  
you better wake up, wake up, wake up, wake up, wake up, wake up, wake up, wake up!

I'm boardin' a rocket ship comin' for you, boy  
Oh, baby, I'm gonna rocket to you!
