

Zornik, Goodbye

Here by I return your love
I just wanna give it back
I am fading
The silence can be beautiful but also very cold
But somewhere out there there's a place where I belong

Cause one thing I know
Somewhere out there there's a place where I belong
goodbye
But somewhere out there there's a place where I belong
goodbye
But somewhere out there there's a place where I belong

The choises can be hard to make
Is it luck or is it love
I am waiting
I'm waiting for the voice inside me to tell me what I'm not
But somewhere out there there's a place where I belong

Cause one thing I know
Somewhere out there there's a place where I belong
Goodbye
But somewhere out there there's a place where I belong
Goodbye
But somewhere out there there's a place where I belong
