Zucchero, Baila (ang.)

It blows my mind now that I found you Deep in the night of tequila boom boom Slide by me, sexy thing, sexy and fine I got my eyes on you all of the time... yeah You've got to have chaos burnin' in you To make you open like a flower in bloom Hell lives inside you next to paradise The moon and sun have come to watch your shine Baby, the night is on fire Yea, we're flames in the sky Flashin' through the night... what you say? Baila, baila morena Sotto questa luna piena Under the moonlight Under the moonlight Go chica, go cocca keep it all shakin' You know tonight somethin's up for the takin' My heart is gold, heart of a saint With you beside me girl, oh, then I ain't Baby, the night is on fire Yea, we're flames in the sky A scandal in the night... what you say? Baila, baila morena Sotto questa luna piena Under the moonlight Baila, under the moonlight Sotto questa luna piena Baila morena... yeah yeah yeah You got me hurtin' so bad, so bad I got to have it, so bad Baila, baila morena Sotto questa luna piena Under the moonlight Daila, under the moonlight Sotto questa luna piena Daila morena Sotto questa luna piena Sotto guesta luna piena Sotto questa luna piena

Under the moonlight.
