## Zucchero, I Won't Be Lonely Tonight

Standing alone in the night People talk around me Under the neon street light Tryin' hard to hold on I need somebody's love to Surround me

Tossing a coin in the air Making my decision What has gone wrong with my life I've drunk all my religion I need somebody's love To remind me

I won't be lonely tonight All I want's another baby I won't be lonely tonight All I need's another baby

Heads I leave town in the night Tails I drink a bottle If it should land on its side I'll return to love you I need somebody's life to Surround me

I won't be lonely tonight All I want's another baby I won't be lonely tonight All I need's another baby

And this is the last time I wanna be I'm gonna be

I won't be lonely tonight All I want's another baby I won't be lonely tonight All I need's another baby
