

Zug Izland, Everything

You got your blind indecisions of all the things they say
This is your life this time live it how you know.

Give one man power to kill
And one man hands to heal
Left one man suffering
All I want is everything
All I want is
All I want is
All I want is everything

They got the door wide open, won't you walk on in?
We're goin for a freak ride, won't you take a spin?
Okay this'll be the last chance so now make it right
If someone tries to stop you stand your ground and fight

Give one man power to kill
And one man hands to heal
Left one man suffering
All I want is everything
All I want is
All I want is
All I want is everything

Everything, everything
Everything, everything
Everything, everything
Everything, everything

Give one man power to kill and one man hands to heal
Give one man everything still others left suffering
Thrill of livin' stay on the right path
When death is calling you can't take it all back

Can't take it all back
Can't take it all back

Give one man power to kill
And one man hands to heal
Left one man suffering
All I want is everything
Give one man power to kill
And one man hands to heal
Left one man suffering
All I want is everything

All I want
All I want
All I want is everything

All I want
All I want
All I want is everything
