

Zug Izland, Saved

Late again, no time wait in line
To get what you need
Still how you feel just to keep it real
You never really needed anyone to tell you what to be
Or what you should do
This is your dream
What you want it to be, you can be
Saved by love and your faith

Chorus: (x5)
Saved by love

Climb your ladder, how high do you get?
No one will know
When you get time, pull on through
Can't tell just how much time we get
Wish that we knew
If its guidance you see, look inside of you
What you want it to be, you can be
What you wanted to see's in front of me
What you wanted to give, you have gave
Saved by love and your faith

Chorus: (x5)
Saved by love

What you wanted to be, you can't be
What you wanted to see's in front of me

Chorus
