

Zug Izland, Taken

You never wanted to tell them
Still trouble will find its way
Silence took quickly
Killing off the endless dream

Our souls never wanted to be
Dark cell like purgatory
Black eyes lights blindin'
The path is there, still cant find it

Taken from me!
Taken from me!
Taken from me!
You cant take me from me!

Mind trip not ever afraid
Mental wounds in sicken needing
The priest in church to sing
Songs of love, peace for humanity
Hands high steps bring, bring
Young soul inculcating
From the streets they will bring
Death from hate and thrill of suffering

Taken from me!
Taken from me!
Taken from me!
You cant take me from me!

(woman singing)

Standing at the gates, Heaven
Begging them to let me in
It's not his fault that
He lived in a world of sin

One fight, had to kill a man
Now it's in bad sufferin'
He did the best to do us right
But still the gates are locked tight

Taken from me!
Taken from me!
Taken from me!
You cant take me from me!
Taken from me!
Taken from me!
Taken from me!
You cant take me from me!
Taken from me!
Taken from me!
Taken from me!
You cant take me from me!
Taken from me!
Taken from me!
Taken from me!
You cant take me from me!
