

Zwan, Baby Let's Rock!

Baby, i'm the greatest thing you've got
In a good way i suppose
'Cause everywhere you are is where i'm not
Left my love for you inside our room
I'd rather spar
You can kick, you can cry, you can fuss
But let's rock

Baby, is there time enough
to go and grab your brand new shoes
I've taken care of everything
Why can't you know i'm tired now
Baby, let's rock

Lady, i'm the greatest thing you've got
My rings are to set in the stone
Every single wish is still a lie
From a tired machine, of a dustless scheme
Turn back your clocks
You can bitch, you can cry, you can moan
But let's rock

Baby, is there time to lose
So go and grab those brand new shoes
I've taken care of everything
Why can't you know what I wanna do?
Baby, let's rock
Let's rock
Let's rock
Let's rock

I dream about you every night
'Cause when i do you hold me tight
I'd love somebody like you, in my life
In my life

Baby, i'm the greatest thing you've got
In a good way i should hope
In a good way i suppose

Baby, i'm the greatest thing you've got
Baby, i'm the greatest thing you've got
I've taken care of everything
I've even gone and changed all the locks
Baby, let's rock
