

10,000 Maniacs, On And On (Mersey Song)

Out through the foggy window there
Just to see the eyes of my future children
Looking back at me
Back through the foggy window
On and on
Miles pass years turn over
On and on
There from that rolled down window
Ponies run free cradled protectively
There in the greenery somewhere
I keep this picture
On and on
Miles pass years turn over
On and on
For all the roads we've travelled
And all the bridges burned
I was thinking out loud the ways of the world
That all seem so constant
How few of the lessons we really have learned.
Out through the foggy window frozen in frame
Capturing passing pictures life's last refrain,
Memories ashes scatter
On and on
Miles pass years turn over
On and on.
