## 10,000 Maniacs, The Earth Pressed Flat

Detroit, L.A., Boston, San Francisco,

first time o'er the ocean on a plane a billion stars below me lay, circle slowly JFK,

so much there to see inside of a week they came looking for something new try to press it flat inside of a few days Old Dominion Saturday,

Arlington's eternal flame Sunday tour Niagara Falls in the mist.

Monday I'll be heading south New Orleans the Cajun sound Tuesday's Tupelo Elvis's home . . .

try to press it flat inside of a few days what a wonderful stay, on a mule Grand Canyon ride on Wednesday,

hope to get to Denver in a day Friday ride to Washington,

in the glacial mountain sun hop a train for Canada

to the east they came looking for something new

try to press it flat inside of a few days what a wonderful stay
