## 10 Seconds Down, Out drinking

| Waking up in m | ny bed and I'm | dying with thir | ain in my head | I feels like it's | going to burst |
|----------------|----------------|-----------------|----------------|-------------------|----------------|
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
|                |                |                 |                |                   |                |
