

# 10 Years, Focus

Digging deeper in my mind  
Can't get you out of my head  
There's no way to describe  
Just how you make me feel  
I don't know  
Is it love  
I have lost control  
Even when I'm gone  
I can't get away

I can't Focus when I'm near you  
Do you notice me at all  
I can't Focus when I hear you  
Do you notice I can't focus

Like the moth flies to the light  
He's captured at first sight  
I can't deny I'm taken by  
The beauty in your eyes  
I don't know  
Is it love  
I have lost control  
Even when I'm gone  
I can't get away

I can't Focus when I'm near you  
Do you notice me at all  
I can't Focus when I hear you  
Do you notice I can't focus

I can't Focus when I'm near you  
Do you notice me at all  
I can't Focus when I hear you  
Do you notice (Do you notice)

I can't Focus when I'm near you  
Do you notice me at all  
I can't Focus when I hear you  
Do you notice I can't focus
