

# 10 Years, Pacemaker

Their comfort amazes me  
Numbered and placed as drones  
How our spinal cords are breaking  
their fall  
Diamonds pressed and morphed to  
feed me pills

The status quo - Ahh  
I should've noticed  
Slightly unfocused - on you

I should've known  
You're cleverly brilliant  
I should've known  
I should've known all along.

Treat you more as a leper  
Feeding more than some method

Cataclysmic chaos must occur for his  
return then...  
Please wish it now - all on yourself  
so that - we may - enjoy - Christ in you.

One by one we fall

Turn this into gold  
So I can count it.
