

10 Years, Picture Perfect (In Your Eyes)

In your eyes
Is the picture perfect
In your eyes
does the grass look greener have you seen it
through my eyes

The world has caught on fire
from what I've been told
These city lights (city lights)
Are Killing ever slowly the sanity with-in me
maybe I'm
Lost in my creation
This isn't how i thought I'd turn out

In your eyes
I'm picture perfect
In your eyes
The grass is greener have you seen it
Through my eyes

(Through my eyes)

The stars are burning brighter
So bright we can't ignore
Were hyptonozed
by televised train wrecks
Tragedies with paychecks
Maybe I'm
A product of my placement
We're given no chance (no chance)
to make up our minds

In your eyes
I'm picture perfect
In your eyes
The grass is greener have you seen it
Through my eyes

Cuz through my eyes

In your eyes
I'm so picture perfect
In your eyes
The grass is greener have you seen it
Through my eyes

(Through my eyes)
(Through my eyes)
