

100th And May, That's Just What We Do

To Rose...

-Verse 1-

You've been everything that I've dreamed
And wished for in this lifetime
With an angel's smile and long blonde hair
I thought I knew this
I'd give anything to become the boy
You always dreamed of
By the way I act I think that I
Know what I'm after

-Chorus-

But I think I love you
I think we've become one
There's no use fighting
We'd be denying what we know is true
Cause that's just what we do

-Verse 2-

I have lived a life that's all tied up
And I, I'm ready for you
To take this life and make it right
So I, I can love you
Did you know I wrote this for you
Before you even knew me

-Bridge-

We're breaking free tonight
Letting go of our goodbyes
Everything we've felt it known
You're somebody I'd love to know
