

# 10CC, Don't Squeeze Me Like Toothpaste

I treat you like a woman, so treat me like a man

I took you to a better place, and helped you understand

So don't squeeze me like toothpaste, like putty in your hand

I'm gonna go away  
I'm gonna blow away

A woman is a woman, and a man is just a fool

He takes all of the heartaches, and life can be so cruel

So don't squeeze me like toothpaste, like putty in your hand

I'm gonna go away  
I'm gonna blow away

Who's gonna be there when the morning comes

Head on the pillow, smiling at me

I get up and make the coffee

It must be love  
It must be love

Who's gonna be there when the morning comes

Head on the pillow, smiling at me  
I get up and make the coffee

It must be love  
It must be love

I treat you like a woman, so treat me like a man

I took you to a better place, and helped you understand

So don't squeeze me like toothpaste, like putty in your hand

I'm gonna go away  
I'm gonna blow away
