

112, Come See Me

(feat. Mr. Cheeks)

[Chorus:]

Baby you can come see me,
Cuz I need you here with me,
And I'll show you what love is made of...
Later on if you are free,
Baby you can come see me,
And I'll show you what love is made of...

It's been a while,
And I'm sitting here thinking of
How it felt when we first made love,
Oh I need that feeling again,
Nobody can compare, so...

Come with me,
And I'll go with you,
To this place that lovers dream of,
We can do anything,
Sexy things,
And I'm here to let you know...

[Chorus]

It's been awhile,
Thinking about the last time I held you,
And the smell of your sweet perfume, babe
The way I felt when you left my room,
Oh I wanna feel that way tonight

Come with me,
And I'll go with you,
To this place that lovers dream of,
We can do anything,
Sexy things,
And I'm here to let you know...

[Chorus 2x]

[Mr. Cheeks]

Now that bodysuit that your wearing girl,
It fits you like paint,
You think I'm gonna sit here,
And pass this chance when I ain't,
I got some thoughts set on you,
How many things we can do,
How many women in my life
But yet I only love you,
You're number one on my list,
And I,
I reminisce over our first kiss,
And girlfriend,
Yo picture this,
Let's relight the candle,
Give this one more shot,
I never meant to mistreat ya girl,
I need you right now...

[Chorus]
