

# 112, God Knows&nbsp;

[Verse 1:]

Baby tell me why, why do you question  
All this love that I have for you  
If you look into my eyes you'll make an exception  
I will show you love like no one before  
Put your trust in me, allow me to be there  
Baby give me your hand to hold  
Cause the feelings that I have are so complicated  
That words cannot explain there is only one who knows

[Chorus:]

Only God knows how much I love you  
God sees my heart and that it cares about you  
God knows that I'm thinking of you  
And I'm longing for you, how I wish that you knew what God Knows

[Verse 2:]

Baby tell me what, what is the reason  
One good reason you're so insecure  
Cause after all that I have done  
I think you should know by now  
Girl I'm down for you and the love I have is pure  
I wanna help you understand just how I feel for you  
You're the one that I can't let go  
Because the feeling that I have is so complicated  
That words cannot explain there is only one who knows

[Chorus (2x):]

Only God knows how much I love you  
God sees my heart and that it cares about you  
God knows that I'm thinking of you  
And I'm longing for you, how I wish that you knew what God Knows

And all of my lonely days, only God knows how lonely  
And oh the sleepless nights baby, only God sees me cry  
And everytime I think of you, only God can read my mind  
God knows I tried to help you understand  
And Heaven knows I miss you  
Only God can see how much  
Cause everytime you go away, I long for your touch  
And when I say I love you girl, only God sees my heart  
He sees my heart, only God knows

[Chorus:]

Only God knows how much I love you  
God sees my heart and that it cares about you  
God knows that I'm thinking of you  
And I'm longing for you, how I wish that you knew what God Knows
