

# 112, Say Yes

[Verse 1]

Girl you had my attention  
From the first time  
I laid eyes on you  
And ever since that moment  
I wanted to be  
Be the one for you

And I know its hard  
'cause you've been scarred  
But baby let me heal that wound  
And I know that you've heard  
All this before  
But there's a different man  
At your door

[Chorus:]

Why don't we just run away  
We can take a trip, leave today  
All I need is for you to just  
Say yes

You don't have to bring a thing  
Don't worry 'bout that  
It's all on me  
All I need is for you to just  
Say yes

[Verse 2]

Might be crazy but I know that  
You want it just as bad  
Now you've finally got a reason  
To leave that pain in the past

'cause we can  
Go wherever you want to  
Do whatever you like  
Ooh let me show you babe  
The kind of real man  
That you been missing

[Chorus 2x]

Ohhhhhhh  
Ohhhhhhh  
Ohhhhhhh

This is what I need from you  
Don't you worry 'bout a thing

[Chorus 2x]

Baby why don't we (ohhhhh)  
Run away (ohhhhhhh)  
And leave today (ohhhhh)  
All you gotta do is say yes (ohhhh)  
Just say yes
