Left the cold timber hi shortie, think she a dime

Me on the Mic showed her be sexing going on talking reckless on the phone, she'll be naked waiting
Soon as I undress its on, she'll be screaming Jermaine to 6 in the morning

Girl I need to see you right away

See there's something on my mind bout u and I
that I gotta say, oh baby

Lately we've been talking on the 2 way

about watcha like, about wat I like and I think its time we do something about it

It's been too long since

You had a man in ur life

And whether u know we can not

You need someone to touch that spot that u love

Baby im willing to give u wat uve been missing

Don't tell my girl, don't tell my about it

What I need to know is

Do u want me in the way,

The way that I want you, way that I want you

Baby I want you, would you freak me

Could u freak me in the way that I freak you, way I freak you,

Baby I freak you, would u let me

(Mike)

I use to want you so bad years ago

Now the feelings come back, baby its bad

It's a little bit stronger than before

Is it wrong if I touch ya

Where ur man didn't touched ya

When he had you baby

Don't say no baby

Just let me have my way with you

It's been too long since

You had a man in ur life

And whether u know we can not

You need someone to touch that spot that u love

Baby im willing to give u wat uve been missing

Don't tell my girl, don't tell my about it

What I need to know is

Do u want me in the way,

The way that I want you, way that I want you

Baby I want you, would you freak me

Could u freak me in the way that I freak you, way I freak you,

Baby I freak you, would u let me
