

# 16 Stitch, Patiently

Cover me with the night air

let it fill your lungs

let it take you away

but be gentle

from here you could fall so far

fall so deeply, fall in love

Chorus

Do what you want if it makes you feel alright

just do what you want

Do what you want if it makes you feel alive

just do what you want.

Patiently with your arms wide

open up and breathe

open up and breathe this in

but be gentle

from here you could fall so far

fall so deeply, fall in love
