

2 tygodnie, Don't even try

Don't even try
To take my time
Say what you have to say
And back to your life
Deep in my heart
I see the world
Where everyone got
That what they want
So can you imagine place where man like you
Can find another way which will be good
Can find this beautiful sound when sun wakes up
Please baby take me home and never come back
It isn't good time
To whisper good bye
So say what you have to say
And back to your life
Do you really think
That our love is past
I never heard it from your mouth
That you broke up
So can you imagine place where man like you
Can find another way which will be good
Can find this beautiful sound when sun wakes up
Please baby take me home and never come back
