

24-7 Spyz, Break The Chains

Break the chains

Crazy ways on the streets - its a freak show

Times have changed since I was day one old

There he lies on the ground with his torn up clothes

Gotta help this man but he is not alone

Theres got to be a way - Thats what I say to myself

But if I try too hard - Im right back on that shelf

You give and give and give - you think youve won this race

People crying - people dying - seems like its lost in space

Break the chains! Of this freak show, ah

Clear my brains - I cant take no more, yeah

Break the chains! Of this freak show, da da ra ra

Clear my brains - I cant take no more

Crazy ways on the streets its a freak show

Times have change since I was day one old

There he stands with no hope - and his pride in chains

Gotta help this man because his souls in pain

Theres got to be a way - Thats what I say to myself

but if I try too hard - Im right back on that shelf

You give and give and give- you think youve won this race

People crying - people dying - seems like its lost in space

Theres got to be a way...

Chorus

Break the chains! Of this freak show

Clear my brains! I cant take no more
