

28 Days, I Remember

One time i remember
i remember when you used to think
that you were much better
now you smoke and now you drink
You lost it your legal
taking pills and you contradict
those sweeping comments you
comments you made before you backflipped
I hope you feel like you belong
yeah just like you did before
just another scenester fool
just another fashion whore
We sure saw who stuck around
morals walked on out the door
now we see you at the club
and you're grinding on your jaw
Was it worth it
feel like you belong
turn your back
feel like you belong
Was it worth it
feel like you belong
turn your back
feel like you belong
was it worth it, turn your back
One time i remember
i remember when you used to think
that you were much better
now you smoke and now you drink
I hope you feel like you belong
yeah just like you did before
just another scenester fool
just another fashion whore
We sure saw who stuck around
morals walked on out the door
now we see you at the club
and you're grinding on your jaw.
